SANICUBIC® 2 Classic
SANICUBIC® 2 Pro

Less chance of clogging due to the Pro X K2 grinder.

2 motors for peace of mind (alternative and simultaneous operation in the event of an alarm), ideal for small commercial building and public places.

Removable motors and level sensors for ease of maintenance.

Control and alarm boxes for security alerts.

IP68 Certified waterproofing.

Compact.

Several inlets available for greater flexibility of installation.

Discreet installation with a DN40 outlet (ext 50 mm).

ISOLATION VALVES
Guillotine valves for inlet pipes
In order to comply with the regulations and to facilitate maintenance operations, isolation valves must be installed on the black water inlet as well as on the discharge pipe.

ACCESSORIES

1. For pipe 50 mm diameter
   DN50
   Product Code: 1170
   Barcode: EAN 3308815072659

2. For pipe 100 or 110 mm diameter
   DN100
   Product Code: 1090
   Barcode: EAN 3308815072666

ACTIVATED CARBON FILTER
Neutralises odours.
Can be used with SANICUBIC®
Product Code: 1070
Barcode: EAN 3308815076661

Flow rate 13 m³/h
Max height (Q=0 l/min.) 13 m
Maximum recommended height 11 m
Voltage 220-240 V / 50 Hz
Motor power 2 x 1500 W
Maximum current 13 A
On/off level 140/80 mm
Alarm level 210 mm
Weight (including accessories) 35 kg
IP rating IP68
IP rating of control box IPX4
Electrical class Single phase

PACKAGING
Lifting station with 2 motors
2 Integrated non-return valves
Alarm box
Control box GTB connectors: dry contact for alarm
